PROFILE

Thank you for taking the time to review my resume. As you peruse this piece of paper, you'll notice that most of my experience is within graphic design, marketing, and communications. That makes me sound a little boring, so you should also keep in mind that I have a great sense of humor, I'm an animal lover, and a born again runner. If you would like to know more about me and my professional experience, please feel free to contact me.
